Alternatives of therapy (tooth supported): Fixed denture Removable denture
Aim of implant therapy: Crown-bridge prosthetics Removable denture

Interval	Treatment	Doctor	Duration
	professional tooth cleaning		
	Provisional preservation		
	Extraction / Socket Preservation		
	Soft tissue management: <input type="checkbox"/> Connetive tissue graft <input type="checkbox"/> Free gingival graft <input type="checkbox"/> Composite graft <input type="checkbox"/> before implantation <input type="checkbox"/> after implantation		
	Template for diagnostics and surgery :		
	Implantation: <input type="checkbox"/> implant registration intra OR X-ray diagnostics: <input type="checkbox"/> OPG <input type="checkbox"/> CBCT		
	Recovery operation:		
	Prosthetics		

Risk analysis

Tendency of wound healing: Periodontal diseases:
 Nicotine: Morphotype of gingiva:
 Hygiene: Allergies:
 Bisphosphonate therapy:

Referral: Family doctor Internist ENT

Premedication

Novalgin
 Ibuprofen
 Arcoxia
 Dormicum
 Dexamethason systemic
 Amoclav (Amoxicillin-Clavulan)
 Cefuhexal (Cefuroxim)
 Clindasaar (Clindamycin)
 others

Postmedikation

Novalgin
 Ibuprofen
 Dexamethason local
 Amoclav (Amoxicillin-Clavulan)
 Cefuhexal (Cefuroxim)
 Clindasaar (Clindamycin)
 others
